

# Select Solutions™ Mix & Match™

Customise, Innovate, Differentiate

## Custom Constructions Simplified for Optimal Performance

The Select Solutions Mix & Match Service leverages Avery Dennison's expertise in helping customers find the right labelling solutions for their specific application needs, including specialty and challenging label constructions.

Many different face materials, adhesives and liners are available from stock under Avery Dennison's Mix & Match Service, with a small minimum order quantity (MOQ) and lead times as short as 7 business days. Extensive customisation is possible to achieve high performance and very sophisticated labelling materials, including all of the following:

- Semi Gloss Paper
- Cast Coat Paper
- Metalized Paper
- PET Films
- BOPP Films

Mix & Match allows label converters to request a precise combination of adhesive, facematerial and release liner. It opens up whole new opportunities to innovate and differentiate. As with all Avery Dennison products, extensive support comes as standard, for printers, converters, packers and end-users. A technical specialist can help to determine which existing or tailor made product is the optimal solution for any given application.
